

New Source Review newspaper advertisements for construction permit applications, February 19, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: February 17, February 18, or February 19, 2004. Public notices are generally published every two weeks. The previous publication of public notices was February 3 – 5, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Hodge Manufacturing Company, Inc. with a mailing address of P.O. Box 396, Woodbury, TN 37190-0396. They seek to obtain an air contaminant permit (Division identification number: 08-0042-01/57081) to construct a Lead Wheel Weight Manufacturing Operation at 800 South College Street, Woodbury, TN 37190. This proposed operation would consist of an electric melting pot, molder, powder paint booth, and associated equipment used to produce lead wheel weights. A cyclone separator would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cannon County "Cannon Courier"--published once on or before Thursday, February 19, 2004.

The applicant is Vic Davis Construction, Inc. with a mailing address of 1300 Jan Way, Kingsport, TN 37660. They seek to obtain an air contaminant permit (Division identification number: 10-0094-01/56995) for construction of a Portable Rock Crusher at Elk Avenue (SR91, Hwy 321), Elizabethton, TN 37643. This proposed operation would consist of a jaw crusher, feeder, and conveyors used to produce crushed aggregate. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Carter County "Elizabethton Star"--published once on or before Thursday, February 19, 2004.

The applicant is CK Electronics with a mailing address of 1877 Volunteer Parkway, Manchester, TN 37355. They seek to obtain an air contaminant permit (Division identification number: 16-0144-01/57087) for a Soldering Operation located at the same address. This existing operation consists of five wave soldering lines and associated equipment used to produce automotive circuit boards. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Coffee County "Tullahoma News"--published once on or before Thursday, February 19, 2004.

The applicant is Memorial Crematory LLC, Subsidiary of Taylor Funeral Home, Inc. with a mailing address of P.O. Box 160, Dickson, TN 37055. They seek to obtain air contaminant permits for construction of air contaminant sources at 214 North Main Street, Dickson, TN 37055, as follows:

(1) Animal Crematory (Division identification number: 22-0113-01/57043). This proposed operation would consist of an incinerator used to cremate small animal remains. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

(2) Human Crematory (Division identification number: 22-0113-02/57044). This proposed operation would consist of an incinerator used to cremate human remains. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

For the Dickson County "Dickson Herald"--published once on or before Thursday, February 19, 2004.

The applicant is Jones Fiber Products, Inc. with a mailing address of P.O. Box 367, Humboldt, TN 38343. They seek to obtain an air contaminant permit (Division identification number: 27-0173-01/57057) for construction of a Cotton Batting Manufacturing Process at 2000 Hwy 45 By-Pass, Humboldt, TN 38343. This proposed operation would consist of blending hoppers, garnets, lappers, a thermofusion oven, and associated equipment used to produce cotton batting. Natural gas would be used as fuel for the oven. A roller drum filter and wet air washer would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange"--published once on or before Thursday, February 19, 2004.

The applicant is Vulcan Construction Materials, LP with a mailing address of P. O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 30-0021-02/57053) for construction of two Diesel-powered Electric Generators at 1192 Lonesome Pine Trail, Greeneville, TN 37745. This proposed operation would consist of one (1) 1,043 hp internal combustion engine and one (1) 1,341 hp internal combustion engine used to supply power for a rock crushing operation. Because of the amount and type of emissions, the use of pollution control

equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, February 19, 2004.

The applicant is Vulcan Materials Company-Midsouth Division with a mailing address of P.O. Box 7, Knoxville, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 32-0088-02/57047) for construction of a Diesel-Powered Electric Generator at 4375 McClister Road, Morristown, TN 37814. This proposed operation would consist of a diesel-fired generator used to provide power for an existing rock crushing operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, February 19, 2004.

The applicant is Tony Hooper Sawmill, Inc. with a mailing address of P.O. Box 83, Toone, TN 38381. They seek to obtain an air contaminant permit (Division identification number: 35-0072-01/57035) for a Sawmill located at 3445 Highway 138, Toone, TN 38381. This existing operation consists of a debarker, portable hurdle sawmills, chipper, and associated equipment used to produce green lumber. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, February 19, 2004

The applicant is H.C. Spinks Clay Company with a mailing address of 612 Tenth Avenue North, Nashville, TN 37203. They seek to obtain an air contaminant permit (Division identification number: 40-0010-01/56903) for modification of a Clay Processing Operation located at 275 Carothers Loop, Paris, TN 38242. The requested modifications are to increase the production rate, and to increase the operating hours allowed for using fuel oil. Sulfur dioxide emissions would be modified due to the alternate backup fuel source. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Swinea is the assigned Division person.

For the Henry County "Paris Post-Intelligencer"--published once on or before Thursday, February 19, 2004.

The applicant is UGN, Inc. with a mailing address of 1001 State Street, Chicago Heights, IL 60633. They seek to obtain an air contaminant permit (Division identification number: 57-0278-04/57025) for modification of an Automotive Sound Insulation Manufacturing Process located on 48 Venture Parkway, Jackson, TN 38305. This existing operation consists of an adhesive roll coat machine with fugitive cleaning and line purging solvent, adhesive spray booth, oven for adhesive drying, and two water-jet cutters. A cyclone and dry filters are used for pollution control. The requested modification is to replace the roll coater with a double-sided robotic spray booth. There would be physical

construction. Regulated air contaminants emitted by this source would increase. Ms. G. Latif is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, February 19, 2004.

FIRST APPLICANT

The first applicant is Southern Carton Co., Inc. with a mailing address of P.O. Box 1578, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0091-01/57042) for construction of a Scrap Collection System at 1340 Higgs Road, Lewisburg, TN 37091. This proposed operation would consist of a cyclone used to remove corrugated scrap from production machinery and transfer it to a baler. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

SECOND APPLICANT

The second applicant is Walker Die Casting, Inc. with a mailing address of 1125 Higgs Road, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0001-24/57089) for construction of an Abrasive Blasting Operation at the same address. This proposed operation would consist of a shot blast machine and associated equipment used to de-scale metal products. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Marshall County "Lewisburg Tribune"--published once on or before Thursday, February 19, 2004.

The applicant is SPX Contech/Metal Forge Company with a mailing address of 901 Alfred Thun Road, Clarksville, TN 37041. They seek to obtain an air contaminant permit (Division identification number: 63-0164-03/57020) for construction of an Aluminum Die Casting Operation at the same address. This proposed operation would consist of a natural gas fired melting furnace and a die cast machine. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the Montgomery County "Leaf Chronicle"--published once on or before Thursday, February 19, 2004.

The applicant is Eaton Inoac Company with a mailing address of 132 Industrial Park Circle, Livingston, TN, 38570. They seek to obtain air contaminant permits for construction/modification of air contaminant sources located at the same address, as follows:

(1) Adhesive Work Cell (Division identification number: 67-0054-06/57018). The proposed modification is to begin utilizing an existing adhesive work cell (#2) which has been constructed, but was removed from service. Because of the amount and type of emissions, the use of pollution control equipment has not been proposed. There would be no physical construction. Regulated air contaminants would be emitted from this source. Ms. L. Hardin is the assigned Division person.

(2) Four (4) Adhesive Work Cells (Division identification number: 67-0054-07/57019). This proposed operation would consist of four (4) new adhesive work cells used for production of plastic automotive parts. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. L. Hardin is the assigned Division person.

For the "Overton County News"--published once on or before Thursday, February 19, 2004.

The applicant is Metro Ready Mix Concrete, Inc. with a mailing address of 1136 2nd Avenue North, Nashville, TN 37208. They seek to obtain an air contaminant permit (Division identification number: 74-0125-01/57086) to construct a Concrete Batch Plant at 2874 Joe Dowlen Road, Pleasant View, TN 37146. This proposed operation would consist of a concrete batch plant, cement/slag/flyash silos, and associated equipment used to produce ready mix concrete. A baghouse would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the "Robertson County Times"--published once on or before Thursday, February 19, 2004.

The applicant is Producers Mid-South Company with a mailing address of 6 SE 4th Street, Oklahoma City, OK 73129. They seek to obtain an air contaminant permit (Division identification number: 84-0092-01/56988) for modification of a Cotton Seed Storage Facility located at 250 Witherington Drive, Covington, TN 38019. This existing operation consists of two seed houses, dump station, and load out station. Permeable and impermeable fabric screens are used for pollution control. The requested modification is for the update of permit conditions. There would be no physical construction. Regulated air contaminants emitted by this source would not increase. Mr. J. Fuss is the assigned Division person.

For the Tipton County "Covington Leader"--published once on or before Thursday, February 19, 2004.
